Subject: QC Inventory Checklists

Here are the checklists for the existing Cabot data:

I am also including a screen shot of the Cabot data directory and the memo from Rich Fetzger outlining what data EPA received from Cabot. I thought this might be helpful in identifying data reports.

Let me know if you have any questions or if I can be of further help!

Terry

Only four types of organizations need to worry about data quality:

*Those that care about their customers,
Those that care about profit and loss,
Those that care about their employees, and
Those that care about their futures.*

– Thomas C. Redman (2006)
